

MAX VON PETTENKOFER-INSTITUT
LEHRSTUHL VIROLOGIE

The Virology of the Max von Pettenkofer Institute, at the LMU Munich, Germany, offers a

PhD position in Molecular Virology (m/f/d)

We are looking for a PhD student to join the research group of PD Dr. Hanna-Mari Baldauf at the Max von Pettenkofer-Institute, Department of Virology at the LMU Munich. The position is funded for 36 months (TV-L E13, 65%) and will start in early / mid 2024.

The DFG-funded project is highly collaborative at the interface of biochemistry, virology and evolutionary biology using state-of-the-art technologies and focuses on lentiviral gene expression mechanisms and lentiviral evolution. Previous work in biochemistry and/or virology is an advantage, but not mandatory. Applicants should have a strong commitment to science, a strong interest in molecular virology and the ability to conduct independent research. The PhD position requires a Master's Degree/Diploma in Life Sciences or related disciplines.

We offer an exciting research topic with high biomedical relevance in a stimulating and interactive scientific environment. Our research facility is located on the research campus in Großhadern/Martinsried, which offers a world-class scientific environment and access to various core facilities. LMU is committed to the professional development of women. Therefore, we especially welcome applications from women. In case of equal qualifications, applicants with disabilities will be given preference.

If you are interested in joining us, please send your application (letter of motivation, curriculum vitae with list of publications, certificates and 2 letters of recommendation) by **15.02.2024** to:

PD Dr. Hanna-Mari Baldauf
