

LUDWIG-  
MAXIMILIANS-  
UNIVERSITÄT  
MÜNCHEN

MAX VON PETTENKOFER-INSTITUT  
LEHRSTUHL MEDIZINISCHE MIKROBIOLOGIE UND  
KRANKENHAUSHYGIENE

We are offering, at the Max von Pettenkofer Institute for Medical Microbiology and Hygiene of Ludwig-Maximilians-Universität München, one position as

**Doctoral scientist/Ph.D. student TV-L E13 (65%)**

The position will be available from September 2024 at the Max von Pettenkofer Institute (located in Munich city center).

The successful applicant will participate in the postgraduate program “Infection Research on Human Pathogens@MVPI”. The doctoral research project will be performed in the group of Prof. Dr. Sebastian Suerbaum and address questions related to the genomic adaptation of the bacterial gastric pathogen *Helicobacter pylori* to its individual human host, using a combination of State of the Art genomic analysis with diverse molecular experimental approaches.

We are seeking a highly motivated young researcher, who would like to perform a Ph.D. thesis in an interdisciplinary and international environment. We anticipate applicants with an excellent previous scientific training, very good communication skills, and the ability to work independently and as part of a team. We offer an excellent research environment, access to a wide variety of techniques, and the possibility to participate in the structured graduate program of MvPI and LMU, including focused lectures, seminars, and skills courses. Applicants with a completed undergraduate degree (Master or equivalent) in the life sciences, biomedical or natural sciences will be considered.

Experience in microbiology, ideally human pathogens, molecular biology/biochemical methods and bioinformatics skills will all be beneficial for successfully conducting the project, but can also be acquired as part of the PhD project.

Detailed information about the Max von Pettenkofer Institute, the PhD program, and the Suerbaum lab are available online at: <http://www.mvp.uni-muenchen.de/>. LMU Munich promotes an environment of gender equality and diversity.

Please email your complete application documents, including your CV and complete transcripts of records, letter of motivation, and two references, until 15th of August, 2024, to:
