MAXIMILIANS-
UNIVERSITÄT
MÜNCHEN

Lab and Research Manager (f/m/d)

with expertise in BSL2-level work, phage biology, molecular biology, and microbiology

At the Max von Pettenkofer Institute for Medical Microbiology and Hygiene at Ludwig-Maximilians-Universität München (city center), we are offering an exciting position as Lab and Research Manager to support the experimental research activities of the Wendling Lab.

Your responsibilities:

- Organization and management of laboratory operations (BSL2), including procurement and logistics
- Administrative support and coordination within the research group
- Assistance with microbiological and molecular biology experiments

Your profile:

- Completed vocational training (e.g. BTA, MTLA, VMTA) or a university degree (Bachelor/Master) in microbiology, molecular biology, or a related discipline
- Experience working with BSL2 organisms
- Proficiency in microbiological and molecular biology techniques
- Excellent written and spoken English; German language skills are an asset
- Strong organizational skills, ability to work independently, and a team-oriented mindset

We offer:

- A dynamic, international, and inclusive research team
- Modern laboratory facilities and a broad range of scientific research topics
- Opportunities for professional development and to design and pursue your own scientific project

For further information on the Wendling Lab's research focus, please visit:

<https://www.mvp.uni-muenchen.de/microbiology/wendling/>

Applicants with disabilities will be given preferential consideration in case of equal personal and professional suitability.

Please send your application (one PDF document) including your CV, a short motivation letter, and relevant certificates by July 20, 2025 to: wendling@mvp.lmu.de
